

DENSO SUPERLIGHT PROFILING MASTIC

DESCRIPTION A cold applied self-supporting mastic used to provide a smooth profile around irregular shaped fittings such as mechanical joints, valves & flanges prior to the application of Denso petrolatum or bituminous anti-corrosion tapes. Denso Profiling Mastic displays the following characteristics:

- Easy application over a wide temperature range
- Excellent sealing and moulding properties
- Non-setting and non-hardening
- Minimum surface preparation required
- Unaffected by water, mineral acids, alkalis and salts
- Very low specific gravity which gives a very high volume to mass ratio

COMPOSITION A self-supporting mastic, composed of saturated petroleum hydrocarbons, beads of closed cell cellular polymer and flow control additives.

SAFETY Normal hygiene procedures. Wash hands thoroughly with soap and water or a proprietary hand-cleaner prior to eating. Launder contaminated clothing, gloves, etc.

STORAGE Store in original containers in a cool, dry place away from and sources of ignition. Recommended shelf life: 12 months

TYPICAL PROPERTIES	DATA
Colour	Dull cream
Specific Gravity	0.72
Specific Volume	1390ml / kg
Flash Point	>180°C
Solids Content	100%
Temperature Range For Application For Service	0°C to 45°C 60°C maximum
Packaging	20kg boxes 350mm x 50mm x 50mm x 65mm triangular strips
Recommended Primer	Denso S105 Paste Denso Priming Solution

Important
