

EASY ONE STEP
SOLUTION FOR
PIPES, FITTINGS,
AND CABLES

DENSO™ COLOURTAPE

Denso™ ColourTape is a grey petrolatum tape which is ideally suited for small to medium diameter pipes, fittings, cables, nuts and bolts. No primer is necessary, making it an easy one step solution to protect wet or dry surfaces from corrosion.

This versatile tape requires minimal surface preparation, and can be applied by hand or wrapping machine. It is highly conformable, and specially stabilised & pigmented for use above ground where appearance is important.

USES:

- Buried pipelines & fittings
- Above-ground structures and pipework
- Tie bars and post-tensioned cables
- Column bases & steel supports
- Hydraulic hose fittings
- Battery terminals
- Under thermal insulation
- Cooling tower pipes
- Cadwelds

FEATURES:

- No primer required
- Surface tolerant
- Cold applied
- Can be applied to wet or damp surfaces
- Contains no solvents
- U.V./Weather resistant
- Non-hardening, non cracking
- Exceptionally conformable over a wide temperature range
- Can be applied by hand or wrapping machine
- Ready for immediate service after application
